

As a part of Serving Side by Side, we need your help to pack RUMC's crate of supplies for the Wesley Medical Center in Venezuela! Already before the pandemic, and even more now, Venezuela was facing overlapping crises of poverty, hunger, and hopelessness, so we are partnering with Venezuela Now to help address some of the most acute concerns. If you can, please pick up one or more of the following items next time you're at the store:

- Large canisters of powdered baby formula
- Tylenol (acetaminophen) – adult and children's
- Advil (ibuprofen) – adult and children's
- Claritin (loratadine) – pill for adult, liquid for children
- Zyrtec (cetirizine) – adult and children's
- Cough medicine (dextromethorphan) – adult and children's
- Multivitamins – adult and children's
- GasX (simethicone)
- Tums (calcium carbonate)

We'll have pieces of the crate in both the Sanctuary and the Chapel buildings to collect donations, then all items will be packaged up to be shipped to Venezuela to support families who visit the clinic. Thank you in advance for your generosity and support of one of our great mission partners!
